

Tugas Religiositas 1 - Community Service

On Edutrip, I helped with Community Services in the Tzu Chi resource center. I sorted trash, dismantled electronics, and repaired them. It was amusing and sometimes stressful. I disassembled a little bicycle which was stressful. I also sorted a pile of garbage into separate containers. During the CS, we didn't care if we were from different countries, and spoke different languages. We did our business. When someone needed help, the people there would come to help them. I helped a person disassemble a bike and sorted trash with my friends, it was fun but a little tiring and I felt disgusted by how much trash was in just one bag. I realized that there were more than 20 bags alone filled with garbage. I learned that even normal people, no matter their age, race, or gender can work together till they are literal friends. I was disgusted by the piercing smell of trash around the place.
